

## Rio's Spanish Class Learns to Make Arroz Con Leche

Spanish students at Rio Lindo Adventist Academy recently learned how to make arroz con leche and were tasked with making a cooking video. Spanish 1 students introduced themselves, named all ingredients, and then used titles/text throughout their videos. Spanish 2 students wrote scripts for the entire cooking process. Not only did they practice pronouncing new Spanish words, but they also had a delicious dessert at the end. Some students even took the basic recipe provided in class and enhanced it using their own ingredients!
