

Glendale City Church Feeds ICU Team at Adventist Health, Hosts Noontime Concerts for Members

As an outreach ministry effort, the Glendale City Church showed their love and appreciation for the healthcare heroes at Adventist Health Glendale in mid-August by hosting “TLC for ICU.” The church provided lunch from a local Lebanese restaurant for 50 ICU workers. Other efforts to uplift their community include Glendale Noon Concerts—music programs which are streamed on Facebook and YouTube. During a recent Glendale Noon Concert, pianist Brendan White performed It’s Time, by Eleanor Alberga and Djami, by Kaikhosru Sorabji. These are a few of the ways that this congregation is creatively loving and serving those around them.
